

Programming Exercise 1

1. Operators
 - 1.1. Arithmetic
 - 1.2. Relational
 - 1.3. Logical
 - 1.4. Add two numbers
 - 1.5. Average of 5 numbers
 - 1.6. Even odd
 - 1.7. Divisible by
 - 1.7.1. both 3 and 5
 - 1.7.2. 3 but not 5
 - 1.8. Swapping value of two integers
 - 1.8.1. Three variable
 - 1.8.2. Two variable
 - 1.9. Adding float and integers
 - 1.10. Increment decrement operators
 - 1.11. Roots of a quadratic equation
 - 1.12. C Program to Calculate Area and Circumference of Circle
 - 1.13. C Program to Calculate Area of Scalene Triangle
 - 1.14. C Program to Calculate Area of Equilateral Triangle
 - 1.15. C Program to Calculate Area of Right angle Triangle
 - 1.16. C Program to Calculate Area of Rectangle
 - 1.17. C Program to Calculate Area of Square
 - 1.18. Type conversion and type casting
 - 1.19. General errors and warnings
2. Conditional Statements
 - 2.1. Checking what is the value $a==2$
 - 2.2. Number is +ve or not
 - 2.3. Greater of the three
 - 2.4. Marks distribution into categories
 - 2.4.1. If else if
 - 2.4.2. Switch
 - 2.4.3. Concatenation of conditions using logical operators
 - 2.5. Conditions where the control logic is '1' or '0'
 - 2.6. Conditional operator
 - 2.7. Check Vowels input
 - 2.8. Lower or upper case
 - 2.9. Change case of character (65-90, 97-122, diff 32)
 - 2.10. Find greatest in 3 numbers
 - 2.11. Reverse a given number
 - 2.12. Calculate sum of 5 subjects and find percentage
 - 2.13. Find Factorial of Number Using Recursion
 - 2.14. Check Whether Given Number is Palindrome or Not
 - 2.15. Check for Armstrong Number in C
 - 2.16. Check Whether Number is Perfect Or Not
 - 2.17. Jump using break continue goto
 - 2.18.
3. Loops
 - 3.1. Print All ASCII Value Table in C Programming
 - 3.2. Find Factorial of Number without using function
 - 3.3. Fibonacci series
 - 3.4. Factorial
 - 3.5. Print the sum of series $1 + 1/2 + 1/3 + 1/4 + \dots + 1/n$.
 - 3.6. Find answer of the following series. Input steps from keyboard. $\text{Sum} = 12 - 32 + 52 - 72 + \dots$
 - 3.7. Sum of $1^2 + 2^2 + 3^2 + \dots$
 - 3.8. Sum $x - x^3/3! + x^5/5! - x^7/7! + \dots$
 - 3.9. Program to copy one string to another
 - 3.10. Count digits
 - 3.11. Sum of digits
 - 3.12. Reversing an integer
 - 3.12.1. Checking palindrome
 - 3.13. Armstrong number (sum of cubes of all digits)
 - 3.14. Patterns printing programs
 - 3.15. Conversion programs
 - 3.15.1. C Program to convert temperature from degree centigrade to Fahrenheit
 - 3.15.2. Decimal to Binary using Bitwise and operator
 - 3.15.3. Program to Convert Binary to Decimal number: Number System
 - 3.15.4. Program for Decimal to Hexadecimal Conversion in C >> Number System
 - 3.15.5. Program for Decimal number to Octal Conversion : Number System
 - 3.15.6. Program to Convert Decimal number into Binary : Number System :
4. Arrays
 - 4.1. Averaging
 - 4.2. Sorting
 - 4.3. Count odd and even, prime numbers
 - 4.4. Max and min in array and how many times they appear in array
 - 4.5. C Program to implement Stack Operations Using Array
 - 4.6. C Program to delete duplicate elements in an array
 - 4.7. C Program to calculate Addition of All Elements in Array
 - 4.8. C program to find Smallest Element in Array in C Programming
 - 4.9. C Program to find Largest Element in Array in C Programming
 - 4.10. C Program to reversing an Array Elements in C Programming
 - 4.11. Merging of Two arrays in C Programming
 - 4.12. Searching element in array
 - 4.13. copy all elements of an array into another array in C
 - 4.14. Program Insert element in an Array
 - 4.15. Program for deletion of an element from the specified location from Array
 - 4.16. Printing Array Elements in C Language
 - 4.17. C Program : Reading Array Elements
 - 4.18. One Dimensional Array All Programs
5. Multidimensional arrays
 - 5.1. Maintain student detail
 - 5.2. Matrix add, subtract, multiply
 - 5.3. C Program to Check whether Matrix is Magic Square or Not ?
 - 5.4. C Program to Print Square of Each Element of 2D Array Matrix
 - 5.5. Program to find Transpose of Given Square Matrix
 - 5.6. C Program to find addition of Lower Triangular Elements in C Programming
 - 5.7. C program to calculate sum of Upper Triangular Elements in C
 - 5.8. C Program to evaluate Subtraction of two matrices (matrix) in C
 - 5.9. C program for addition of two matrices in C
 - 5.10. Addition of Diagonal Elements in Matrix
 - 5.11. Addition of All Elements in Matrix
 - 5.12. Accessing 2-D Array Elements In C Programming
 - 5.13. C Program to Find Inverse Of 3 x 3 Matrix in 10 Lines
 - 5.14. C Program to Multiply Two 3 X 3 Matrices
6. Characters Arrays
 - 6.1. Print all the Letters in Upper Case
 - 6.2. Program that takes a string from user and prints the total number of vowels i.e. (a,e,i,o,u) present in the string.
 - 6.3. Reversing a string
 - 6.4. C Program to Sort set of strings in alphabetical order using strcmp()
 - 6.5. C Program to Convert String to Integer
 - 6.6. Program to convert String into Uppercase Using Library Function
 - 6.7. Program to convert String into Lowercase Using Library Function
 - 6.8. Program to copy one string into other with using library function [strcpy]
 - 6.9. Program to Concat Two Strings with using Library Function : Strcat
 - 6.10. Find Length of String Using Library Function
 - 6.11. C Program to count number of words digits and vowels using pointers in C Programming
 - 6.12. C Program for sorting the list of Strings
 - 6.13. C Program to Find Length of the String using Pointer

- 6.14. Write a C Program to Reverse Letter in Each Word of the Entered String
- 6.15. C Program to Encode a String and Display Encoded String
- 6.16. C program to Delete all occurrences of Character from the String.
- 6.17. C Program to Concat Two Strings without Using Library Function
- 6.18. C Program to Find Substring Of String Without Using Library Function
- 6.19. C Program : Reverse String Without Using Library Function [Strrev]
- 6.20. C Program to Compare Two Strings Without Using Library Function [Strcmp]
- 6.21. C Program to Copy One String into Other Without Using Library Function.
- 6.22. Check Whether Character is Lowercase or Not without using Library Function
- 6.23. Check Whether Character is Uppercase or Not without using Library function
- 6.24. C Program to Count number of Uppercase and Lowercase Letters
- 6.25. Search occurrence of Character in String :
- 6.26. With using User-defined Function Write a Program to Find Length of String
- 6.27. Program to Find Length of String Without using Library Function
7. Pointers
 - 7.1. C Program to Calculate Area of Circle using Pointer
 - 7.2. C Program to read integers into an array and reversing them using pointers
 - 7.3. Reverse two variables to show multiple return from functions
 - 7.4. Access strings using pointers
 - 7.5. Access structure members using Pointer to structure
 - 7.6. Assign values by reference
8. Function
 - 8.1. C Program to Display Prime Numbers Between Intervals by Making Function
 - 8.2. C Program to Check Prime and Armstrong Number by Making Function
 - 8.3. C program to Check Whether a Number can be Express as Sum of Two Prime Numbers
 - 8.4. C program to Find Sum of Natural Numbers using Recursion.
 - 8.5. C program to Calculate Factorial of a Number Using Recursion
 - 8.6. C Program to Find H.C.F Using Recursion
 - 8.7. C program to Reverse a Sentence Using Recursion
 - 8.8. C program to Calculate the Power of a Number Using Recursion
 - 8.9. Finding maximum number out of two numbers using function
9. Recursion
 - 9.1. C Program to print Fibonacci Series using recursion
 - 9.2. C Program to Multiply two Matrices using Recursion
 - 9.3. C Program to calculate sum of numbers 1 to N using recursion
 - 9.4. Find Sum of Digits of the Number using Recursive Function in C Programming
 - 9.5. C Program to print Tower of Hanoi using recursion
 - 9.6. Find Factorial of Number Using Recursion
10. Structure
 - 10.1. C Program to read and print name and other details of 50 students using Structure?
 - 10.2. C Program to sort array of Structure in C Programming
 - 10.3. C program to use structure within union & display the contents of structure elements
 - 10.4. C Program to Calculate Size of Structure using sizeof Operator
 - 10.5. Sorting Two Structures on the basis of any structure element and Display Information
11. File handling
 - 11.1. C program to copy the contents of one file into another using fputc
 - 11.2. C Program to read last n characters from the file !
 - 11.3. C program to convert the file contents in Upper-case & Write Contents in a output file
 - 11.4. C Program to Compare two text/data files in C Programming
 - 11.5. C Program to Write on Data File and Read From Data File
 - 11.6. C Program to Copy Text From One File to Other File
 - 11.7. How to display same source code as output in c
12. Tricky Programs
 - 12.1. Calender Program in C Programming Language : Display Day of the month
 - 12.2. C Program to show swap of two no's without using third variable
 - 12.3. How to write c program to count number of digits in number without using mod operator
 - 12.4. How to Input Password in C : Validation of User name
 - 12.5. Accept Paragraph using scanf in C
 - 12.6. Print Hello word without using semicolon in C
 - 12.7. Nested Printf statements : Example 2
 - 12.8. Printf inside printf in C : Example 1
 - 12.9. C program to add reversed number with Original Number ?
 - 12.10. C program to reverse the digits of a number ? [In 3 Steps]
 - 12.11. How to Add Digits of the Number Using Single Statement ?
 - 12.12. Swap two numbers without using third variable and using XOR Operator in C Programming
 - 12.13. How to Add two numbers without using arithmetic Operators in C Programming ?
 - 12.14. How to Create Your Own Header File in C Programming ?
 - 12.15. How to write C Program Without using Main Function (in 3 ways) ?
 - 12.16. Swap / Interchange two variables [numbers] without using Third Variable
 - 12.17. How do i Return Multiple Values From a Function
 - 12.18. C Program to Create directory in C using Interrupts.
 - 12.19. How to use Interrupts in C Programming?
 - 12.20. How to print 1-10 numbers without using Conditional Loop in C Programming?

Programming Exercise 2

1. Integers
 - a. C Program to Check if a given Integer is Odd or Even
 - b. C Program to Calculate the Sum of Odd & Even Numbers
 - c. C Program to Check if a given Integer is Positive or Negative
 - d. C Program to Find the Number of Integers Divisible by 5
 - e. C Program to Read Two Integers M and N & Swap their Values
 - f. C Program to Accept two Integers and Check if they are Equal
 - g. C Program to Compute the Sum of Digits in a given Integer
2. Number Conversions
 - a. C Program to Convert the given Binary Number into Decimal
 - b. C Program to Convert a Decimal Number to Binary & Count the Number of 1s
 - c. C Program to Convert a Given Number of Days in terms of Years, Weeks & Days
 - d. C Program to Convert Binary to Octal
 - e. C Program to Convert Binary to Hexadecimal
 - f. C Program to Convert Decimal to Octal
 - g. C Program to Convert Decimal to Hexadecimal
 - h. C Program to Convert Roman Number to Decimal Number
 - i. C Program to Convert Octal to Binary
 - j. C Program to Convert Hexadecimal to Binary
 - k. C Program to Convert Numbers to Roman Numerals
 - l. C Program to Convert Octal to Decimal
 - m. C Program to Convert a Number Decimal System to Binary System using Recursion
 - n. C Program to Convert Binary Code of a Number into its Equivalent Gray's Code without using Recursion
 - o. C Program to Convert Binary Code of a Number into its Equivalent Gray's Code using Recursion
3. Recursion
 - a. C Program to find Sum of Digits of a Number using Recursion
 - b. C Program to find Reverse of a Number using Recursion
 - c. C Program to find Sum of N Numbers using Recursion
 - d. C Program to find whether a Number is Prime or Not using Recursion
 - e. C Program to Print Binary Equivalent of an Integer using Recursion
 - f. C Program to find Product of 2 Numbers using Recursion
4. Special Numbers
 - a. C Program to Find the Biggest of 3 Numbers
 - b. C Program to Reverse a Given Number
 - c. C Program to Reverse a Number & Check if it is a Palindrome
 - d. C Program to Find the Sum of two Binary Numbers
 - e. C Program to Find Multiplication of two Binary Numbers
 - f. C Program to find Product of 2 Numbers without using Recursion
 - g. C Program to Check whether a given Number is Armstrong
 - h. C Program to Check whether a given Number is Perfect Number
 - i. C Program to Print Armstrong Number from 1 to 1000
 - j. C Program to Add two Complex Numbers
 - k. C Program to Generate Fibonacci Series of N Numbers using Command-Line Argument
 - l. C Program to Compute First N Fibonacci Numbers using Command Line Arguments
 - m. C Program to Find the Sum of first 50 Natural Numbers using For Loop
 - n. C Program to Swap the Contents of two Numbers using Bitwise XOR Operation
 - o. C Program to Multiply given Number by 4 using Bitwise Operators
- p. C Program to Find if a given Year is a Leap Year
- q. C Program to Extract Last two Digits of a given Year
5. Arrays
 - a. C Program to Calculate Sum & Average of an Array
 - b. C Program to Calculate the Sum of the Array Elements using Pointer
 - c. C Program to Calculate Sum of all Elements of an Array using Pointers as Arguments
 - d. C Program to Compute the Sum of two One-Dimensional Arrays using Malloc
 - e. C Program to Find the Sum of Contiguous Subarray within a 1 – D Array of Numbers which has the Largest Sum
 - f. C Program to Find the Largest Two Numbers in a given Array
 - g. C Program to Find the Second Largest & Smallest Elements in an Array
 - h. C Program to Find the Largest Number in an Array
 - i. C Program to Put Even & Odd Elements of an Array in 2 Separate Arrays
 - j. C Program to Insert an Element in a Specified Position in a given Array
 - k. C Program to Delete the Specified Integer from an Array
 - l. C Program to Cyclically Permute the Elements of an Array
 - m. C Program to Sort the Array in an Ascending Order
 - n. C Program to Sort the Array in Descending Order
 - o. C Program to Sort Names in an Alphabetical Order
 - p. C Program to Merge and Sort Elements of 2 different Arrays
 - q. C Program to Merge the Elements of 2 Sorted Array
 - r. C Program to Sort N Numbers in Ascending Order using Bubble Sort
 - s. C Program to Split an Array from Specified Position & Add First Part to the End
 - t. C Program to Accept an Array & Swap Elements using Pointers
 - u. C Program to Read an Array and Search for an Element
 - v. C Program to accept Sorted Array and do Search using Binary Search
 - w. C Program to find the Biggest Number in an Array of Numbers using Recursion
 - x. C Program to Generate Pascal Triangle 1 D Array
 - y. C Program to Print the Number of Odd & Even Numbers in an Array
 - z. C Program to Print All the Repeated Numbers with Frequency in an Array
6. Advanced Programs on Arrays
 - a. C Program to Print the kth Element in the Array
 - b. C Program to Find the Number of Elements in an Array
 - c. C Program to Check Array bounds while Inputting Elements into the Array
 - d. C Program to Print the Alternate Elements in an Array
 - e. C Program to Find the Odd Element given an Array with only two Different Element
 - f. C Program to Increment Every Element of the Array by One & Print Incremented Array
 - g. C Program to Find the Number of Non Repeated Elements in an Array
 - h. C Program to identify missing Numbers in a given Array
 - i. C Program to Segregate 0s on Left Side & 1s on right side of the Array
 - j. C Program to Find 2 Elements in the Array such that Difference between them is Largest
 - k. C Program to Print Diamond Pattern
 - l. C Program to Print any Print Statement without using Semicolon

- m. C Program to Display its own Source Code as its Output
- 7. Matrices
 - a. C Program to Calculate the Addition or Subtraction & Trace of 2 Matrices
 - b. C Program to Find the Transpose of a given Matrix
 - c. C Program to Compute the Product of Two Matrices
 - d. C Program to Calculate the Sum & Difference of the Matrices
 - e. C Program to Perform Matrix Multiplication using Recursion
 - f. C Program to Check if 2 Matrices are Equal
 - g. C Program to Check if a given Matrix is an Identity Matrix
 - h. C Program to Determine if a given Matrix is a Sparse Matrix
 - i. C Program to Interchange any two Rows & Columns in the given Matrix
 - j. C Program to Sort Rows of the Matrix in Ascending & Columns in Descending Order
 - k. C Program to Calculate the Sum of the Elements of each Row & Column
 - l. C Program to Find the Frequency of Odd & Even Numbers in the given Matrix
 - m. C Program to Accept a Matrix of Order MxN & Interchange the Diagonals
 - n. C Program to Find the Sum of each Row & each Column of a MxN Matrix
 - o. C Program to do the Sum of the Main & Opposite Diagonal Elements of a MxN Matrix
 - p. C Program to Find the Trace & Normal of a given Matrix
 - q. C Program to Display Upper Triangular Matrix
 - r. C Program to Display Lower Triangular Matrix
- 8. Strings
 - a. C Program to Check if a given String is Palindrome
 - b. C Program to Check if a String is a Palindrome without using the Built-in Function
 - c. C Program to Check whether a given String is Palindrome or not using Recursion
 - d. C Program To Print Smallest and Biggest possible Word which is Palindrome in a given String
 - e. C Program to Find the Largest & Smallest Word in a String
 - f. C Program to read two Strings & Concatenate the Strings
 - g. C Program to Concatenate two Strings Lexically
 - h. C Program to Check if the Substring is present in the given String
 - i. C Program to Accepts two Strings & Compare them
 - j. C Program to Find the Length of a String without using the Built-in Function
 - k. C Program to Replace Lowercase Characters by Uppercase & Vice-Versa
 - l. C Program to Remove given Word from a String
 - m. C Program to Remove all Characters in Second String which are present in First String
 - n. C Program to Replace all the Characters by Lowercase
 - o. C Program to Reverse the String using Recursion
 - p. C Program to Reverse every Word of given String
 - q. C Program to Count the Number of Vowels & Consonants in a Sentence
 - r. C Program to Delete All Repeated Words in String
 - s. C Program to Reverse the String using Both Recursion and Iteration
 - t. C Program to Count the Total Number of Words in the Sentence using Command Line Argument
 - u. C Program to Find the Frequency of the Word 'the' in a given Sentence
- v. C Program to Read a String and find the Sum of all Digits in the String
- w. C Program to Copy One String to Another using Recursion
- x. C Program to find the First Capital Letter in a String using Recursion
- y. C Program to find the First Capital Letter in a String without using Recursion
- z. C Program to find the Length of the String using Recursion
- 9. Advanced Programs on Strings
 - a. C Program to find Longer Repeating Sequence
 - b. C Program to Find the Frequency of Substring in the given String
 - c. C Program to Find the Frequency of Every Word in a given String
 - d. C Program to Find Highest Frequency Character in a String
 - e. C Program to Find the Length of the Longest Repeating Sequence in a String
 - f. C Program to find the possible subsets of the String
 - g. C Program to Check whether two Strings are Anagrams
 - h. C Program to Display every possible Combination of two Words or Strings from the input Strings without Repeated Combinations
 - i. C Program to List All Lines containing a given String
 - j. C Program to Print the Words Ending with Letter S
 - k. C Program to Insert Character/Word in any Desired Location in a String
 - l. C Program to Implement Regular Expression Matching
 - m. C Program to Implement strpbrk() Function
 - n. C Program to Implement the KMP Pattern Searching Algorithm
 - o. C Program to Sort Word in String
 - p. C Program to Sort String Ignoring Whitespaces and Repeating Characters Only Once
 - q. C Program to Sort the String and Repeated Characters should be present only Once
 - r. C Program to Count the Number of Unique Words
 - s. C Program to Search a Word & Replace it with the Specified Word
 - t. C Program to Display the Characters in Prime Position a given String
 - u. C Program to Count Number of Words in a given Text Or Sentence
 - v. C Program to Print Combination of two Words of two given Strings without any Repetition
 - w. C Program to Display Every Possible Combination of Two Words from the given 2 String without Displaying Repeated Combinations
 - x. C Program to Accept 2 String & check whether all Characters in first String is Present in second String & Print
 - y. C Program to Check whether a given Character is present in a String, Find Frequency & Position of Occurrence
 - z. C Program to Count the Number of Occurrence of each Character Ignoring the Case of Alphabets & Display them
 - aa. C Program to Count the Occurrences of each C Keyword using Array Structure
 - bb. C Program to Find the First Occurrence of the any Character of String2 in String1
 - cc. C Program to find First and Last Occurrence of given Character in a String
 - dd. C Program to Find the Most/Least Repeated Character in the String
 - ee. C Program to Count the Occurrence of a Substring in String

- ff. C Program to Determine if One String is a Circular Permutation of Another String
- gg. C Program to Find the Consecutive Occurrence of any Vowel in a String
- hh. C Program to Input 2 Binary Strings and Print their Binary Sum
- ii. C Program to Input a String with at least one Number, Print the Square of all the Numbers in a String
- jj. C Program which Converts an Integer to String & vice-versa
- kk. C program that takes input as 2323 and gives output as 2332. ie. the new number should be greater than the previous number but should have the same digits
- ll. C Program to Find the Sum of ASCII values of All Characters in a given String
- 10. Mathematics and Bitwise Operators
 - a. C Program to Check whether the given Integer has an Alternate Pattern
 - b. C Program to round Floor of integer to next Lower Power of 2
 - c. C Program that uses Function to return MSB position of unsigned Integer
 - d. C Program to use Bitwise Operations to Round(floor of) an Integer to next Lower Multiple of 2
 - e. C Program to Print the Range of Fundamental Data Types
 - f. C Program to Check if All the Bits of a given Integer is One(1)
 - g. C Program to find Next higher Value of N with same 1's
 - h. C Program to Count the Number of Trailing Zeroes in Integer
 - i. C Program to Use Bitwise Operations to Count the Number of Leading Zero's in a Number x
 - j. C Program to find the Highest Bit Set for any given Integer
 - k. C Program to Count Number of bits set to 0 in an Integer
 - l. C Program to Replace Bits in Integer from Specified Positions from Another Integer
 - m. C Program to Replace Bits in Integer x from Bit Position a to b from another Integer y
 - n. C Program takes Byte as Input and returns all the Bits between given Positions
 - o. C Program to Swap the ith and jth Bits for a 32-Bit Integer
 - p. C Program to Check if a given Integer is Power of 2 using Bitwise Operators
 - q. C Program to Swap two Integers without using Temporary Variables and Bitwise Operations
 - r. C Program to Find the Position of String of 1-bits in a Number for a given Length
 - s. C Program to Check if nth Bit in a 32-bit Integer is Set or not
 - t. C Program to Check if a given Bit Position is set to One or not
 - u. C Program to Perform Binary Addition of Strings and Print it
 - v. C Program to Reverse all the Bits of an 32-bit Integer using Bitwise
 - w. C Program to Count the Number of Bits needed to be Flipped to Integer X to Generate Integer Y
 - x. C Program to Count the Number of Bits set to One using Bitwise Operations
 - y. C Program To Identify the Missing Number in an Integer Array of Size N-1 with Numbers[1,N]
 - z. C Program to Check whether the given Number is Palindrome or not using Bitwise Operator
 - aa. C Program to Swap two Numbers using Bitwise operators
- 11. File Handling
 - a. C Program to Create a File & Store Information
 - b. C Program to Illustrate Reading of Data from a File
 - c. C Program to Delete a specific Line from a Text File
 - d. C Program to Replace a specified Line in a Text File
 - e. C Program to Find the Number of Lines in a Text File
- f. C Program to Append the Content of File at the end of Another
- g. C Program that Merges Lines Alternatively from 2 Files & Print Result
- h. C Program to List Files in Directory
- i. C Program to Find Sum of Numbers given in Command Line Arguments Recursively
- j. C Program to Display the Function Names defined in C Source File
- k. C Program to Find the Size of File using File Handling Function
- l. C Program to Capitalize First Letter of every Word in a File
- m. C Program to Print Environment Variables
- n. C Program to Copy File into Another File
- o. C Program to Create Employee Record and Update it
- p. C Program to Compare two Binary Files, Printing the First Byte Position where they Differ
- q. C Program to Convert the Content of File to UpperCase
- r. C Program to Replace First Letter of every Word with Capital Letter
- s. C Program to Count No. of Lines, Blank Lines, Comments in a given Program
- t. C Program to Reverse the Contents of a File and Print it
- u. C Program to Convert the Content of File to LowerCase
- v. C Program to Update Details of Employee using Files
- w. C Program to Create Employee File Name Record that is taken from the Command-Line Argument
- x. C Program to Join Lines of Two given Files and Store them in a New file
- y. C Program to Collect Statistics of a Source File like Total Lines, Total no. of Blank Lines, Total no. of Lines ending with Semicolon
- 12. Mathematical Programs
 - a. C Program to Calculate the Simple Interest
 - b. C Program to Find out the Roots of a Quadratic Equation
 - c. C Program to Simulate a Simple Calculator
 - d. C Program to Generate Fibonacci Series
 - e. C Program to find the Nth Fibonacci Number using Recursion
 - f. C Program to Find First N Fibonacci Numbers
 - g. C Program to Find the GCD and LCM of Two Integers
 - h. C Program to find HCF of a given Number using Recursion
 - i. C Program to find LCM of a Number using Recursion
 - j. C Program to find GCD of given Numbers using Recursion
 - k. C Program to find HCF of a given Number without using Recursion
 - l. C Program to Calculate the Value of $\sin(x)$
 - m. C Program to Calculate the Value of $\cos(x)$
 - n. C Program to Calculate the Sum of $\cos(x)$ Series
 - o. C Program to Find the Sum of First N Natural Numbers
 - p. C Program to Check if a given Number is Prime number
 - q. C Program to Find Prime Numbers in a given Range
 - r. C Program to Calculate the Mean, Variance & Standard Deviation
 - s. C Program to Evaluate the given Polynomial Equation
 - t. C Program to Read a Coordinate Point and Determine its Quadrant
 - u. C Program to find Power of a Number using Recursion
 - v. C Program to find the Factorial of a Number using Recursion
 - w. C Program to Compute the Value of X^N
 - x. C Program to Print the Factorial of a given Number
 - y. C program to Calculate the value of nCr
 - z. C Program to Find & Display Multiplication Table
 - aa. C Program to Find out the Sum of Series $1^2 + 2^2 + \dots + n^2$

- bb. C Program to Find the Sum of Series $1 + 1/2 + 1/3 + 1/4 + \dots + 1/N$
- cc. C Program to Find Sum of the Series $1/1! + 2/2! + 3/3! + \dots + 1/N!$
- dd. C Program to Find the Sum of A.P Series
- ee. C Program to Find the Sum of G.P Series
- ff. C Program to Find the Sum of H.P Series
- gg. C Program to Calculate the Area of a Triangle
- hh. C Program to Calculate the Area of a Circle
- ii. C Program to Find the Area of Right angled Triangle
- jj. C Program to Find the Area of Trapezium
- kk. C Program to Find the Area of Rhombus
- ll. C Program to Find the Area of Parallelogram
- mm. C Program to Compute the Surface Area & Volume of a Cube
- nn. C Program to Find the Areas of Different Geometrical Figures
- oo. C Program to Find the Volume and Surface Area of cylinder
- pp. C Program to Find the Volume and Surface Area of Cuboids
- qq. C Program to Find the Surface Area and Volume of a Cone
- rr. C Program to Find the Volume and Surface Area of Sphere
- ss. C Program to Find the Perimeter of a Circle, Rectangle and Triangle
- tt. C Program to Display Floyd's Triangle
- uu. C Program to Display Pascal triangle
- vv. C Program to Calculate the Value of nPr
- 13. Recursion
 - a. C Program for Depth First Binary Tree Search using Recursion
 - b. C Program to Traverse the Tree Recursively
 - c. C Program to Reverse a Stack using Recursion
 - d. C Program to find the Length of the String using Recursion
 - e. C Program to Implement Selection Sort Recursively
 - f. C Program to Input Few Numbers & Perform Merge Sort on them using Recursion
 - g. C Program to find the Nth Fibonacci Number using Recursion
 - h. C Program to find the Biggest Number in an Array of Numbers using Recursion
 - i. C Program to find Sum of Digits of a Number using Recursion
 - j. C Program to find Sum of N Numbers using Recursion
 - k. C Program to Perform Matrix Multiplication using Recursion
 - l. C Program to Display the Nodes of a Linked List in Reverse using Recursion
 - m. C Program to Display all the Nodes in a Linked List using Recursion
 - n. C Program Count the Number of Occurrences of an Element in the Linked List using Recursion
 - o. C Program find the Length of the Linked List using Recursion
 - p. C Program to Perform Binary Search using Recursion
 - q. C Program to Perform Quick Sort on a set of Entries from a File using Recursion
 - r. C Program to Reverse the String using Recursion
 - s. C Program to find Reverse of a Number using Recursion
 - t. C Program to Solve Tower-of-Hanoi Problem using Recursion
 - u. C Program to Copy One String to Another using Recursion
 - v. C Program to Check whether a given String is Palindrome or not using Recursion
 - w. C Program to find whether a Number is Prime or Not using Recursion
 - x. C Program to find the Factorial of a Number using Recursion
 - y. C Program to find LCM of a Number using Recursion
 - z. C Program to find GCD of given Numbers using Recursion
 - aa. C Program to find HCF of a given Number using Recursion
 - bb. C Program to find Product of 2 Numbers using Recursion
 - cc. C Program to find Power of a Number using Recursion
- dd. C Program to Print Binary Equivalent of an Integer using Recursion
- ee. C Program to Print the Alternate Nodes in a Linked List using Recursion
- ff. C Program to Convert a Number Decimal System to Binary System using Recursion
- gg. C Program to find the First Capital Letter in a String using Recursion
- 14. Without recursion
 - a. C Program to Search an Element in a Tree Non-Recursively
 - b. C Program to Traverse the Tree Non-Recursively
 - c. C Program for Depth First Binary Tree Search without using Recursion
 - d. C Program to find HCF of a given Number without using Recursion
 - e. C Program to Solve the Magic Squares Puzzle without using Recursion
 - f. C Program to Convert Binary Code of a Number into its Equivalent Gray's Code without using Recursion
 - g. C Program to find Product of 2 Numbers without using Recursion
 - h. C Program to Convert Binary Code of a Number into its Equivalent Gray's Code using Recursion
 - i. C Program to Print the Alternate Nodes in a Linked List without using Recursion
 - j. C Program find the Length of the Linked List without using Recursion
 - k. C Program Count the Number of Occurrences of an Element in the Linked List without using Recursion
 - l. C Program to Display all the Nodes in a Linked List without using Recursion
 - m. C Program to Display the Nodes of a Linked List in Reverse without using Recursion
 - n. C Program to Search for an Element in the Linked List without using Recursion
 - o. C Program to Reverse a Stack without using Recursion
 - p. C Program to find the First Capital Letter in a String without using Recursion
