

### Report after attending workshop on “ Scientific Writing” at IIT Indore

A two days workshop was organized by the IIT Indore on “**Scientific Writing**” from dated 11 July, 2014 to 12 July, 2014. I got opportunity to attend this workshop. This workshop Inaugurated by Prof. Mathur followed by a lecture by Dr. Rajneesh Mishra. Dr. Rajneesh Mishra discuss that publishing paper in reputed journal helps to making image in the researcher community and getting promotions. This workshop discussed about the research ethics, process to get the patents and law of intellectual property right, the draft of the research proposals and the various funding agencies which supports the research activities. They also discussed international agencies which supports the research activity and how to get research grant, process to get the patents and law of intellectual property right, about grammatical aspects of the writing and general mistakes made in the technical writing, followed by various research tools.

This workshop gives deep understanding of the various aspects of the technical writing and legal issue related to the report writing. The craft of report/paper/research proposal and attributes of the report/paper/research proposal which makes the technical writing effective.

It is also recommended that a workshop on such topic like Scientific Writing and communication may be organized in the our college which help to enhance research activity and better research proposals and project/thesis reports.
