Write up after attending ATMS 2016, February 01-03, 2016

ATMS, the Antenna Test & Measurement Society of India (www.atmsindia.org) is a non-profit professional organization open to all individuals and organizations with an interest in Antenna and Radar Cross-Section Measurements. We focus on practical aspects of the various Measurement Methods and Techniques, and on Measurement Facilities. Our members are from Academics, Industry, and the Govt. and Defence Sector.

ATMS organizes an Annual Conference to facilitate interaction with Peer Groups, and to update technically on topics of interest to the Society. ATMS maintains close links to AMTA, a similar body based in the U.S., and regularly features members of the AMTA as Invited Speakers during its Conference.

During the Conference 67 papers have been presented and key note address was presented by Prof Constantine A. Balanis.
